About Makebot

Founded in 2017, with focus on building skills using STEAM pedagogy, we deliver experiential learning to kids using Coding, Robotics, AI, ML, Data Science, Cyber Security, AR, VR and many more new age technology tools. Our programs help kids to acquire skills which will be mandatory in the near future. These skills develop overall personality of a child.

THIS SUMMER CREATE MAGIC WITH THESE SKILLS :

Cognitive :

- Think & share new ideas
- Problem solving abilities
- Decision making abilities
- Staying curious with tech

Behavioral :

- Learn to handle failure
- Build confidence
- Acquire leadership skills
- Grow positive attitude

Social :

- Build social relationships
- Collaborate with friends
- Sharing & Cooperation
- Develop empathy

BOOKS, REFERENCE MATERIALS, GOODIES AND CERTIFICATION FOR EVERY CHILD
